# Share Holdings And Resources Easily

---

## What is SHARE?

SHARE (Share Holdings And Resources Easily) is a cooperative project to facilitate staff-initiated interlibrary loans among participating Illinois library automation consortia. SHARE was at one time known as the LANDL (Live And Learn) Project.

Participating consortia provide access to their online catalogs:

- iBistro (CCS)
- MAGIC (DLS)
- HAL (HTLS)
- LINC/iBistro (LINC)
- NIC (NILS)
- SWAN (SLS)

## What Does SHARE Offer?

- All libraries that belong to a participating SHARE consortium can place holds and interlibrary loan requests at no charge in the automation systems of all other SHARE consortia.
- You still maintain control of your holdings. Each owning library may restrict holds on specific materials as necessary by configuring its automation system parameters.
- It's convenient. Each library in a participating consortium shall be assigned one barcode that is used by all SHARE consortia.
- The SHARE Website:
  - [www.shareillinois.info](http://www.shareillinois.info) provides members access to valuable resources such as:
    - \* Links to members' online catalogs
    - \* Training material on how to access each member's catalog
    - \* Contact information
    - \* Links to useful sites and documents such as: **Every Library in Illinois**, the **ILLINET Interlibrary Loan Code**, and the **ILDS Delivery Label**.

With a click of the mouse, you'll have the resources of over 500 libraries available at your fingertips, and a collection spanning well over 1,000,000 items.

SHARE is a powerful borrowing instrument that helps your library better serve your patrons.

## Where Can I Find Out More?
